

A gate written before the data stopped the study — and the disposition that followed was pre-registered too

PRE-REGISTERED, BEFORE ANY DATA

ON REAL DATA, 2026-08-12

WHAT THIS PAPER THEREFORE REPORTS

Boxes are schematic; every number on them is loaded from the pinned constants and the gate's own stop receipt. The two refused arms are the microstructure cells; three ungated BSQ units were scored, and what they support is confined to the limitations.
